

THE BIOETHICS CENTER OF RUTGERS-CAMDEN INVITES YOU TO

# FIVE PERSPECTIVES ON ABORTION ETHICS

**PRESENTED BY DON MARQUIS**

**FRIDAY, SEPTEMBER 28**

**3PM TO 5PM**

**LAW E108**

**A RECEPTION WILL FOLLOW**

Don Marquis is Emeritus Professor of Philosophy at the University of Kansas at Lawrence. He has written widely and provocatively on many areas in bioethics, including the morality of abortion, conscription for medical research, and the rule that donors must be dead before donating their organs. He has developed and defended perhaps the most powerful secular argument against allowing abortion, one that is widely anthologized and taught in philosophy classrooms around the world. Come hear his latest thoughts on the once-again-timely topic of abortion ethics.
